

山水·
shan shui

With a great many experience in heart Fully perceiving the surroundings

As a brand with profound knowledge on traditional Chinese culture, MATSU has incorporated the most illustrative mountain and water scenes into modern office furniture and launched its classic work-executive desk designed as per Oriental philosophy and art.

Landscape · Intelligence Deliberation and Good Behavior

During the exploration of shape and practicability, texture and art, simplicity and complication, the Landscape · Intelligence shows the reflection over and attitude towards wisdom through its elegant appearance. Landscape · Intelligence is balanced and moderate. It is not a golden mean, but a wise attitude towards life characterized by "omniscience yet self-discipline", a conduct philosophy of "being a man of courage, wisdom, deliberation and good behavior" and the balance of wisdom.
