Claudio Francesco Bellini

Claudio Francesco Bellini, graduating from Architecture and Industrial Design of the famous Politecnico di Milano in 1990, is now living and working in Milan. He has been fascinated by creating since his childhood and he got inspired by his father, who was also one of the most outstanding designers in history, Mario Bellini.

Claudio Bellini is now recognized as the most influential design studios in Europe, which is well engaged in furniture, product and architecture design. He has been in partnership with many global leading companies like Walter Knoll, Steelcase, Poltrona Frau and Riva 1920, and many of their masterpieces have won big global prizes such as Red Dot, IF and Good Design Award.

Claudio Francesco Bellini (Italy)

Providing you with unique support through brand new mode
Ensuring graceful and comfortable sitting experience

Ergonomic support

People are different. The back cushion of Focus can be regulated in height so the chair enables all to manage the cushion to get their best support. 6 levels of height management and locking and 50MM total track can meet the demands of more users to get a comfortable seat.

Synchronous tilting chassis

22-degree tilting mechanism and 3 levels of locking function can lock the chair back to 3 various tilting angles, the widest of which is 137° that is good for a noon break.

Weight-sensitive mechanism

Focus provides options. Weight-sensitive mechanism automatically regulates tilting degree for you based on your weight. The widest tilting angle is 133 degree.

座高调节

倾仰角度锁定

Great comfort

Waterfall-like design on the front edge helps to relieve thigh pressure and maintain good blood flow.

Fabrics that gives you good tactility

PU and cloth and other good fabrics.
