Executive Table

reddot design award

**Jehs**

+

**Laub**

Markus Jehs (born in 1965 in Stuttgart) and Jürgen Laub (born in 1964 in Ulm) have met each other during the academic studies of industrial design at the Hochschule fuer Gestaltung Schwaebisch Gmuend and became friends after an internship in New York in 1990. After they graduated in 1992 they set up Jehs + Laub in 1994. From that time on they started to design furniture and lamps. Inside Germany, they design office furniture and common furniture for Renz, Schnbuch and Thonet, and design showrooms for Mercedes-Benz.

The Lane, Size, Star For Renz are all their masterpieces. Their designed products have won all major prizes.

# KISS The Star

K.I.S.S. = Keep It Simple & Stupid

The most natural is often the most classic. Star originates from the tree structure and cleverly applies the stability of big trees in the support structure of the desk.

Star is light and slim but as sturdy as a tree. Stylish appearance endows office with a new look. Special legs have facing of bright chrome, expressing sharp and confident feeling. .

### **Ultimate concise design**

Minimalist and pure nature of design may look thin, but the structure is as sturdy as a tree, which maybe the biggest feature of Star collection.

### **Exquisite craft**

MATSU' s partner, RENZ integrates its fantasy for German aesthetics into this design. Smooth grain connection, seamless chrome electroplate craft contribute to monolithic appearance, expressing high quality of art.

### **Smart cabling**

Star series equipped with improved internal cable channeling system. Cable boxes can be attached to legs, and flap cable boxes can be installed on tabletop.

### **Star side cabinet**

Ventilating slot can be installed in star cabinet. It can hold computer case. How great and convenient!

### **Collection**

Star collection includes conference tables, back cabinet and side cabinet. The rich production line offers a one-stop solution for professional management workspaces.
