

WING

- Traditional offices are segmented into sections, but a modern workplace should be diversified and versatile, shifting between open-style and privacy as needed by people.
- Wings shows the design of half private and half open office style which is convenient for the staff to communicate but also allows for privacy protection. The high wings of Wings create semi-open spaces which are natural, focused and comfortable. Wings Sofa uses itself to create a "parlor" / "booth" .

Unique design

unique feature gives the piece a strong visual impact ;
The high wings of Wings create semi-open spaces which are natural, focused and comfortable.

Diversified combination

Available in single and double-seat models, high and middle backrests. More choices on privacy or open-style.

Widespread use

It can turn the space into a small parlor for colleagues or partners.

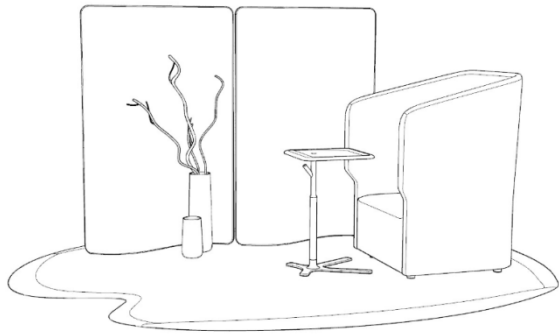

Excellent material

Imported fabric from Denmark gives you soft touch and is easy to be taken care of. We provide many colors for you to choose. Inner frame adopts quality fiberglass that ensures steadiness.

Accessory

You can take a pillow for your Wings sofa, improving comfort

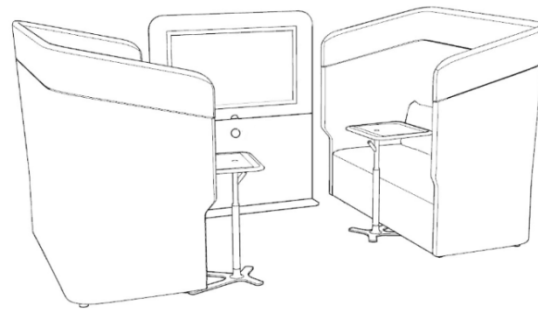

A silent corner in the bustle!

open?private?

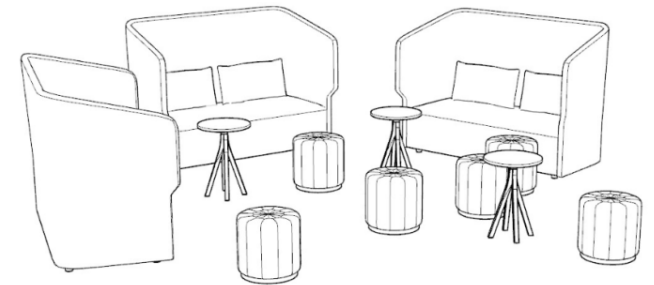

Fully separated?

A private corner in the bustle!

Focusing area. Let's get inspired!

Quiet place created in spaciousness (half open area) facilitates focused discussion.

Socialized working area improves efficiency and idea learning!

Communication, sharing, cooperation and learning come by chance. Active attitude, accompanied by delicious coffee, builds trust.
