

Volpe

Volpe is designed by Norbert Geelen. The a-single-piece three-dimensional base is upholstered with quality foam, to provide ultimate comfortableness.

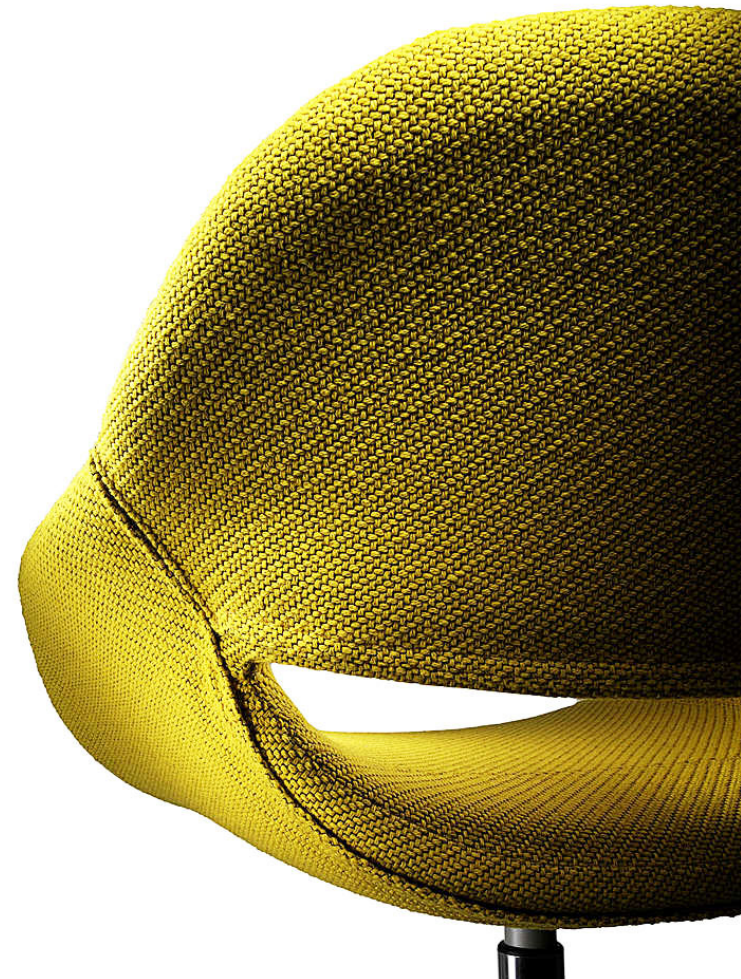

Like Volpino which is also Mr. Geelen' s work, Volpe looks balanced as a whole, streamlined in the body and perfect in craftsmanship and details.

Norbert Geelen

Born in 1968, Norbert Geelen is an accomplished industrial designer in the world who believes that “uniqueness is created by innovation and a different perspective.” After having completed his training as industrial designer at the University of Essen, Norbert Geelen started freelancing at the Italian Studio Matteo Thun in Milan. Together with his partner Robert Kilders, he founded the design studio bert&bert in 1997. Since 2005, Norbert Geelen has been coming back and forth between his German office in Straelen and his Milan studio. He has specialized in furniture design, mainly high-quality seating and tables. He has been working with Kusch+Co since 2007.

Making your stay enjoyable

Design

Volpe' s back and seat integrate perfectly. The unique "smile" design creates lighthearted visual relaxation, and convenience in daily use.

Material

Volpe is manufactured jointlessly via one laminated plate. Inside, we use quality foam for many layers. Further more, we separate foam and surface with silk, which ensures comfortable experience for users.

Adaptability

Volpe chair has four options for the legs, four-prong, disc and more. The fabric for seat has a variety of choices, too, including leather and wool. Volpe is available in high-backrest and mid-backrest models, each with special footstools for different spaces.
