## 全手工制作

产品的编织都是由拉脱维亚的年轻妇女手工完成，手制工艺形成了每件产品的独一无二性。

## Handmade

The production and assembly and of Lucille is a collaboration with MAMMU, a socially responsible fashion company that closely cooperates with young Latvian mothers. The corporate concept allows them to work from home and finish the handcrafted pieces as it fits their schedule. Each piece is made by hand and slightly different.

当谈及丛林时，仿佛烦恼就会减少。在室内空间，Lucille悬挂式植物篮就是丛林最好的代表，将郁郁葱葱的绿色装载起来。

## 逆转的设计

Lucille编织方式源自传统的手工花边编织结构，并加以改进，过往编织工艺，其末端都是松散的绳子，而Lucille的结构则是颠倒过来。顶部绳套起到吊环以及调整高度的作用。

## 自由的生长空间

Lucille吊篮的网眼为植物留下了自由的生长空间，并且可以辅助藤蔓向上攀延生长。从下往上看，透过手工吹制的玻璃花盆可以观察到往常植物所隐藏的根系生长状态。

Less is a bore when it comes to the domestic jungle. Lucille is a contemporary interpretation of a hanging plant basket and organizes our lush indoor greenery.

## The ropes are bundled at the top

The knotted structure is adapted from the traditional macramé but converted for our modern needs. While conventional flower nets end in a bunch of loose ends, Lucilles construction is turned upside down and the ropes are bundled at the top.

## The airy cocoonleaves room for the plant to develop

The noose serves as a hanging loop and the hoist also modifies the height. With its big meshes and without curlicies, the airy cocoon leaves room for the plant to develop and serves as a climbing aid. Looking up from beneath we can see the usually hidden natural processes. Earth and roots are visible through the bottom of the hand blown glass flowerpot.
