Talk, 玛祖铭立Renz系列

Talk, imported from Renz in Germany

Talk会议桌，纤薄的桌面，镀铬铝合金桌脚。简洁有力的设计外加精湛的工艺，令它们每个细节都焕发出无与伦比的设计美。

会议桌的台架结构除了保证稳定性，以及最大化的腿部空间之外，它还能实现相邻两块桌面的巧妙连接。不仅如此，所有拼装和拆卸均无需任何工具，方便快捷。

Talk conference table collection is co-designed by famous designers, Markus Jehs and Jürgen Laub. The thin tabletop and polished chrome plate aluminum alloy table legs are highlights of the overall design. The simple yet powerful design and master craftsmanship bring out the exceptional beauty out of every detail.

Talk conference is sturdy and stable in structure. The leg space is maximized, and two pieces of tabletops next to each other are connected. Moreover, customers don't need any tools to install or remove the structure. Talk collection can be used widely, for meetings, training or discussing. The highly module-based structure and skillful self-adaptive nature generate a variety of combinations to meet people's needs.

## 智能走线

所有繁杂的电源及走线均可收纳于水平的横梁与Talk桌脚之内。让桌面恢复干净和整洁。

## Well-organized cable channeling system

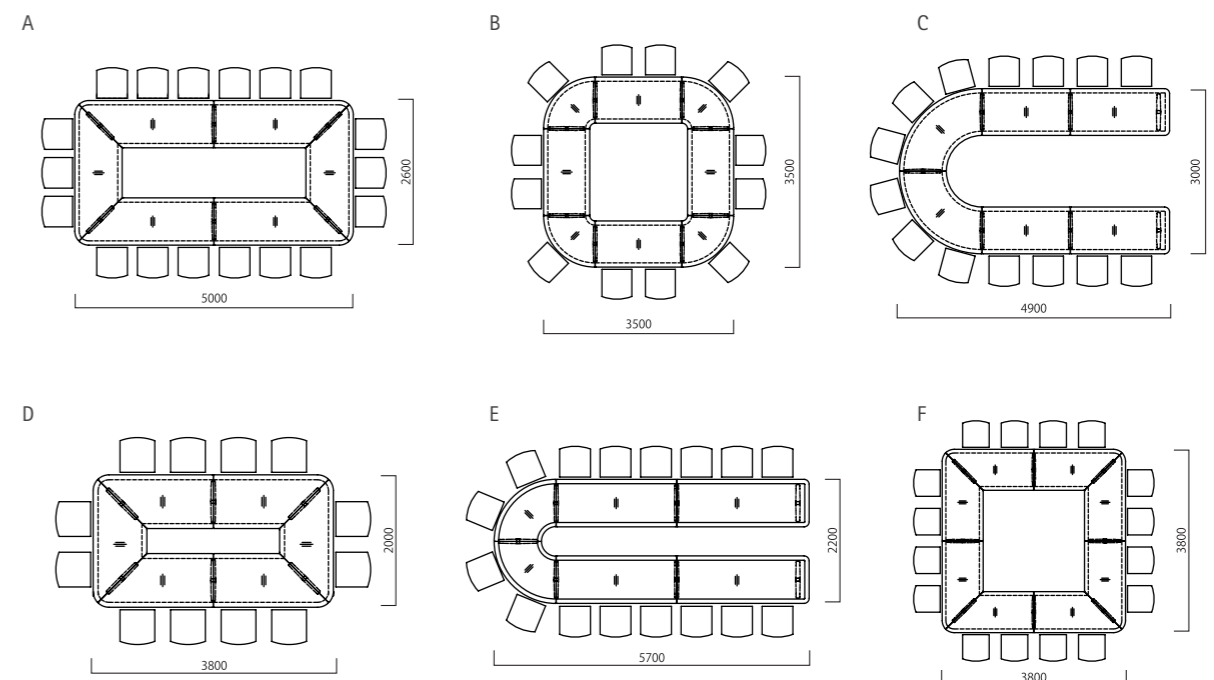

All outlets and cables can be organized into the horizontal beams and Talk legs, to make tabletop neat and clean.

## 轻松组合

Talk会议桌可轻松实现两块桌面的巧妙连接。桌面下的田字凹槽与带有两块锁片的桌脚可紧密连接，拼装拆卸均无需任何工具。

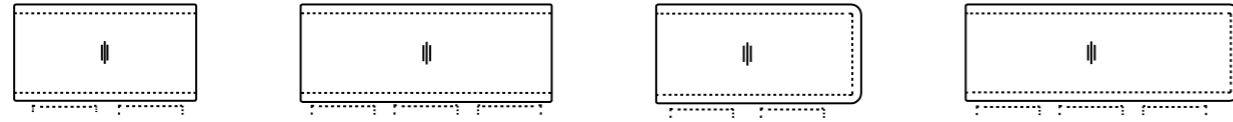

## Easy assembly

Two pieces of tabletops next to each other are connected. The groove under the tabletop can be closely connected to table feet with two locking tabs, without seeking help from any tools for assembly or disassembly.
